Education

Florida International University Miami, FL
Bachelor of Arts in Computer Science | GPA: 4.0/4.0 *Jan. 2026 – May 2028*

Experience

Software Engineer Intern Aug. 2026 – Present
FEAM Aero *Miami, FL*

- Develop full-stack features for the company website in React, Python, and Flask, shipping multiple features to production.
- Build file-processing pipelines with Azure Functions to automate file ingestion, backed by Azure SQL databases.
- Performed QA testing on web features before release, identifying and documenting defects to improve stability.

Information Security Intern May 2026
Royal Caribbean Group – Global Information Security *Miami, FL*

- Designed and deployed a multi-agent system automating the incident commander role, cutting security ticket MTTR by 94%.
- Built agentic personas in Strike48 and n8n, using prompt engineering to define agent behavior and decision logic for triage, escalation, and resolution workflows.
- Migrated the agentic platform between two orchestration frameworks, maintaining continuity and scalability.

Projects

Housing Price Prediction | *Python, scikit-learn, pandas, Anaconda, Git* 2026

- Built a regression pipeline to predict housing prices from 20,000 listings, handling missing values, outliers, and feature encoding.
- Compared Linear Regression, Ridge, Lasso, and Random Forest models to optimize performance, achieving an R^2 of 0.82.
- Collaborated with a team of 4 using GitHub branches and pull requests.

RBT Supervision Manager | *Python, SQLite, Tkinter* 2026

- Implemented a relational SQLite database to manage records for multiple users, replacing error-prone manual spreadsheets.
- Built a Tkinter GUI designed for non-technical users, reducing administrative overhead by approximately 40%.

Leadership & Involvement

Volunteer Lead 2026
ShellHacks *Miami, FL*

- Managed and scheduled 40 volunteers for Florida's largest hackathon, serving about 1,500 student attendees.
- Coordinated event logistics and allocated volunteers across operational areas to keep the event running smoothly.

Director of Finance and Data Analytics Jan. 2026 – Present
INIT at FIU *Miami, FL*

- Analyze financial data to guide planning and resource allocation, reducing budget variances and improving forecasts.
- Process membership and attendance data in Tableau to deliver reports with actionable recommendations.
- Automated monthly financial reporting with Python scripts, improving accuracy and timeliness.

Technical Skills

Languages: Python, Java, C, C++, SQL, JavaScript, TypeScript, HTML/CSS
Frameworks & Libraries: React, Node.js, Flask, scikit-learn, pandas, NumPy, Matplotlib, Seaborn, LangChain, LangGraph
Cloud & Developer Tools: Azure Functions, Azure SQL, Azure DevOps, Docker, Git/GitHub, Linux/Unix, Bash, Postman, Jupyter, Tableau, PowerBI
AI & Automation: Multi-Agent Systems, RAG, Vector Databases, Prompt Engineering, REST APIs, n8n, Strike48, Agentic Workflow Design
